- **Technologies/Frameworks:** HTML | CSS | Django | MySQL | Bootstrap
- **Version Control:** Git | Github
- **Familiar With:** Javascript

PROJECTS

[HostelEngine.com](#) 🔗 | [HTML](#), [CSS](#), [JavaScript](#)

[VIEW](#)

- Designed and developed a dynamic and responsive website using HTML, creating an engaging and user-friendly platform for hostel management.
- Implemented features such as room booking, availability checking, and user authentication to enhance the functionality and efficiency of the hostel management system.
- Employed HTML to create visually appealing and intuitive interfaces, ensuring a seamless user experience for hostel administrators and residents.

[To-Do-List](#) 🔗 | [Python](#), [Django](#), [HTML](#), [CSS](#)

[VIEW](#)

- Developed a dynamic and responsive web application using HTML and CSS for the front-end, providing an intuitive and user-friendly interface.
- Implemented robust backend functionality using Python and Django, allowing users to seamlessly create, manage, and update their to-do lists.
- Integrated database functionality to store and retrieve task-related information, ensuring data persistence and accessibility across sessions.

COURSEWORK / SKILLS

- OOP Concepts
- Database Management System (DBMS)
- Data Structure (DS)
- Computer Networking (Basics)
- Machine Learning

COADING PLATFORM

- [GeeksforGeeks](#)

CERTIFICATIONS

- PCAP: Programming Essentials in Python ([Cisco Networking Academy](#)) [LINK](#)
 - Knows the universal concepts of computer programming, including variables, data structures, control flow, functions, and exceptions.
 - Understands the fundamentals of object-oriented programming (OOP).
